DAY 9 - TRAIL SUMMARY

Distance	4.0 mi
Gain	1,760'
Loss	1,310'
Start Elev.	8,069'
End Elev.	8,496'
High Point	8,496'
Difficulty	Moderate
Hiking Time	2h 40m

Program

Trail Construction Project; Trail Camp

ELEVATION PROFILE

GEOLOGY

Elkhorn Trail Camp is situated on ridge-top terrain with broad views of layered sedimentary and volcanic-influenced rocks. The geology here emphasizes the sculpted high-country slopes of the Cimarron Range, with evidence of the porphyry dike system and the underlying shale sequence. Conservation and trail construction work in this area will be set against the backdrop of these resistant rock masses.

? DAILY RIDDLE

Riddle: I have cities but no houses, mountains but no trees, and water but no fish. What am I? Answer: A map
